

## **PROLIFICS OBTAINS IBM SECURITY SVP AUTHORIZATION**

*Marks 2<sup>nd</sup> IBM Authorization for Systems Integrator Specializing in IBM Technology*

**NEW YORK, New York – June 14, 2011** – Prolifics, an end-to-end systems integrator specializing in IBM technologies, today announced that as of June 14th, it has obtained the IBM Security SVP Authorization. This marks the 2<sup>nd</sup> specialty authorization given to Prolifics by IBM – the first was the Energy and Utilities Industry Authorization obtained in November of 2010.

The initiative is designed to meet the demands of clients who are looking to drive more value from their technology investments. The program enables trusted IBM Business Partners to set themselves apart by gaining credentials in their focus areas and industries for proven solutions. For the Security Authorization, Prolifics demonstrated its expertise in five areas designated by IBM across their software portfolio including: IBM Internet Security Solutions; Infosphere Guardium; Rational AppScan; Tivoli Security and WebSphere DataPower.

“Prolifics has an incredibly strong Security practice that has created solutions for customers around the world to keep their applications and infrastructures safe. Prolifics is thrilled to have received recognition for its investment and dedication to this practice,” said Satya Bolli, CEO of Prolifics. “We are committed to our customers and providing the best software and services in the marketplace and are aggressively seeking authorization in other focus areas such as Enterprise Content Management, Cloud Computing, Social Software and Business Analytics. Additionally, we are seeking authorizations in industries such as Finance, Healthcare and Insurance.”
