PROLIFICS PRESENTS ON REGULATORY COMPLIANCE FOR THE ENERGY INDUSTRY AT CYBER SECURITY CONFERENCE IN SAN JOSE

New York, NY – September 23, 2011 – Prolifics, an end-to-end systems integrator specializing in IBM technologies, today announced that it will exhibit and present at the 2011 Cyber Security for Energy Delivery Conference in San Jose, CA on September 27th and 28th, 2011.

The conference is designed to supply businesses with the critical intelligence and the tools they need to build cost effective, time efficient cyber security strategies. Attendees will be able to join other senior level industry leaders and subject matter experts for knowledge sharing sessions and networking opportunities.

On Wednesday, September 28th, Prolifics and IBM will be co-hosting a speaking session featuring Prolifics' Senior IT Security Architect, Alex Ivkin, on the topic of "The 'Blind Side' of Regulatory Compliance for Energy" which will cover Identity Controls and Data Loss Protection, Web Application Security, Reducing Application Vulnerabilities, Improving Visibility to Applications, etc.

Ivkin recently published a blog entry regarding Cyber Security on Prolifics' Technology Blog. (<http://expert-tech.blogspot.com/2011/09/cyber-security-in-high-demand.html>)

Prolifics, AAA Accredited by IBM for its security expertise, specializes in Identity and Access Management and is IBM Authorized in the Energy and Utilities Industry and for Security. Prolifics is experienced with regulatory compliance mandates and audit requirements in the Energy and Utilities sector. Services include user ID and password management, password synchronization, Single Sign-On (SSO), directory services, Web-based authorization, self-registration, federation, and self-service password reset. Combining business flexibility and cost competitiveness with excellence in technical skills, professionalism and a commitment to its customers, Prolifics' solutions build agility into businesses around the world.
