PROLIFICS ACQUIRES INTEGRATION FIRM PROMENIX, INC.

Combined Company Strengthens SOA Services Practice

NEW YORK, New York – August 18, 2006 – Prolifics, a worldwide provider of IBM WebSphere, Portal, SOA, Security and Business Integration solutions, today announced that it has acquired Promenix, Inc., a leading systems integrator focused on SOA and EAI implementations. This acquisition will expand Prolifics' SOA services practice as well as extend its customer reach to the Mid-Atlantic with the addition of the Promenix office in the Greater Philadelphia area.

"We are seeing a substantial increase in customers adopting SOA in order to efficiently integrate their back-office systems and open up those systems to their customers and suppliers," said Michael Chadwick, EVP of Business Development. "Promenix's skills in project management and in key IBM technologies—like Process Server, Message Broker, MQ and DataPower—along with their SAP and mainframe integration skills significantly enhance Prolifics' own skill set for delivering on SOA projects."

"This acquisition is a win-win for both Promenix and Prolifics," said Vincent Cyr, President of Promenix. "Both companies have a common mission to help customers solve their most complex business problems with reliable technology solutions built on an IBM foundation. Prolifics can now further address the needs of its customers and other organizations in the Mid-Atlantic with end-to-end, high-value solutions."

About Prolifics

As 1 of 3 WebSphere Service Providers retained by IBM, Prolifics' Certified Consultants are top-ranked by IBM in delivering WebSphere, Portal, SOA, Security and Business Integration solutions to Fortune 2000 companies around the globe. Since 1978, Prolifics has leveraged best practices, proven methodologies, and real-world expertise to help organizations reach new markets, achieve increased customer satisfaction and ease collaboration within their enterprise. Recognized for its excellence, Prolifics has gained an industry-high 96% success rate for deploying robust systems on-time and on-budget (independent survey by leading analyst firm).
