

## **PROLIFICS, AWARD-WINNING IBM SYSTEMS INTEGRATOR, RECEIVES “READY FOR IBM RATIONAL” MARK**

**NEW YORK, New York – December 1, 2009** – Prolifics, the largest end-to-end systems integrator specializing in IBM technologies, today announced its “Ready for IBM Rational” Mark for the Prolifics AgileSOA Specification Profiles - a bundled set of UML profiles and matching UML model templates for creating concise and high-value UML model specifications in a standardized manner that allows for sharing across the enterprise.

The Prolifics AgileSOA Specification Profiles benefit the customer with:

- Improved standardization of UML models across projects
- Increased opportunity for reuse of specification assets
- Richer models which better suit agile projects where the emphasis is on producing highly relevant work products efficiently
- Templates that make it easier to create models quickly
- Higher productivity with reference example providing a lot of insight into how to organize your UML models

Prolifics' certified consultants, proficient with the Rational software development platform, help their customers throughout the entire project lifecycle ranging from design and construction to requirements and analysis to software configuration management and delivery. Additionally, Prolifics teams with sister company Arsin, a QA specialist to assess and test software quality, scalability and performance, functionality and Web application security.

In 2009, Prolifics was awarded the Outstanding Solution by a Value Added Reseller / Regional Systems Integrator (SI) for excellence in the implementation of an effective and innovative customer solution enabled by IBM Rational Software.

By leveraging existing IT resources, introducing new capabilities, and integrating business processes, Prolifics enables its clients to be more agile and responsive to any changing business priorities, pursue new markets, beat the competition, drive down costs and maintain corporate compliance.

### **About Prolifics**

Founded in 1978, Prolifics is the largest systems integrator specializing in IBM technologies, having garnered awards for technical excellence across IBM's entire software portfolio. A Premier Level IBM Business Partner, Prolifics provides expert services including architectural advisement, design, development, and deployment of end-to-end SOA and Portal solutions. In 2008, Prolifics joined with SemanticSpace Technologies and Arsin Corporation to form SemanticSpace Group – expanding its global presence and offerings. Prolifics has serviced more than 3,000 customers worldwide across a broad range of industries.
