

Prolifics, 2008 winner of IBM's Outstanding SOA Solution Award; two-time winner of the Overall Technical Excellence Award and 1 of 3 WebSphere Service Providers retained by IBM, specializes in WebSphere, SOA and Portal implementations. We look forward to assisting with your project and can help every step of the way to ensure a smooth transition to a proven, secure and flexible WebSphere environment.

Prolifics' DataPower Starter Pack

Harness The Power Of Your Secure, Fast and Reliable SOA Appliance

Are the following important to your SOA infrastructure?

Security Access Control Speed Compliance Data Transformation

IBM® WebSphere® DataPower® SOA Appliances represent an important element in your holistic approach to Service Oriented Architecture (SOA). These SOA appliances are purpose-built, easy-to-deploy network devices that simplify, help secure, and accelerate your XML and Web services deployments while extending your SOA infrastructure. They offer an innovative and practical approach to harness the power of SOA and enable you to leverage the value of your existing application, security, and networking infrastructure investments.

Prolifics' has been recognized as a leading DataPower expert and can provide the following service to unleash the power of IBM WebSphere DataPower in your implementation.

WebSphere DataPower Integration Appliance XI50 Starter Pack

Develop your WebSphere DataPower strategy; access a wealth of WebSphere DataPower training and mentoring expertise; and minimize your implementation risk. Let Prolifics implement a DataPower solution in your SOA infrastructure.

Get Two (2) WebSphere DataPower Integration Appliance XI50's and support; along with the Prolifics' DataPower Quick Start which includes:

Architecture Review and Recommendations

A Prolifics consultant will (approximately 3 days):

- Conduct an interactive workshop that will focus on DataPower integration specifically in your environment
- Deliver a proposal with recommendations for achieving both short and longer term goals

Installation and Configuration Program

A Prolifics consultant will (up to 5 days):

- Install and configure your WebSphere DataPower SOA appliance
- Provide network configuration and monitoring assistance
- Administer basic instruction/mentoring on the use of the administration console and the command line interface
- Supply security, access control and/or transformation mentoring geared specifically to your requirements

DataPower Starter Pack Price: \$160K* (Total Value = \$185K)

The WebSphere DataPower Integration Appliance XI50

- ◆ Transformation between disparate message formats, including binary, legacy, and XML
- ◆ Multi-step message routing, filtering, and processing
- ◆ Mature message-level security with filtering, validation and encryption
- ◆ XML enablement and wirespeed application integration including XML-enablement of mainframe systems, instantly connecting them to enterprise SOA and Web services

*Customers with IBM Enterprise License Agreements are not eligible. This offer may not be combined with any other discount.
