solutions, content and
collaborative portals,
business intelligence
dashboards, data
cleansing strategies
and security models.
We look forward to
assisting with your
project and can help
with governance and
application manage-
ment strategies
to ensure a smooth
rollout and ongoing
maintenance.

Prolifics' File Transfer Health Assessment

Ensure Successful File Transfers

If you're an organization that relies on FTP-based or home-grown approaches to move files to, from and within your infrastructure then you leave yourself vulnerable to file transfer failure. These failures can instantly translate into significant revenue loss, data corruption and lower overall customer satisfaction. Why put your company at risk?

With Prolifics and IBM WebSphere MQ File Transfer Edition, organizations gain a managed solution for moving files that provides detailed audit logs, an easy-to-use graphical interface and a reliable foundation based on proven technology, WebSphere MQ.

Call on Prolifics for a 30 minute Discovery Call or a File Transfer Health Assessment which can provide all the information you need within 48 hours to ensure your file transfers.

File Transfer Health Assessment:

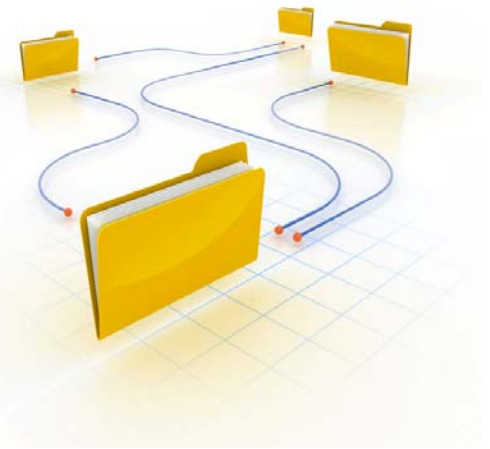

A Prolifics' solution expert will provide a FREE File Transfer Health Assessment based on your submitted log file which will include:

- Discussing the current file transfer approach, its usages and failures
- Analyze performance and throughput
- Examine error logs/files
- Outline solution scenarios
- Make recommendations for more reliable, secure transfers for sending and receiving your files

Length of Engagement: Completed report will be delivered 48 hours after log file is examined.

Fees: \$0 (plus travel expenses - although in most cases no travel is required)

How to get started: The first step is a 15-30 minute discovery call to understand your current situation, identify the areas Prolifics will focus on during the engagement and determine if you qualify for a free File Transfer Health Assessment.

About Prolifics:

Prolifics, in business since 1978, is an end-to-end systems integrator specializing in IBM technologies. A Premier IBM Business Partner, Prolifics has garnered top awards for its customer solutions and its level of technical excellence. Our depth of experience with secure, end-to-end SOA and Portal solutions can help you with all aspects of the full project lifecycle including software procurement, architectural advisement, design, development through deployment, administration and training. With our unparalleled 96% success rate delivering projects on time, on budget, and to specification, let Prolifics be your technology partner. For more information, visit www.prolifics.com.
