

Prolifics, 2010 winner of IBM's Outstanding BPM Solution Award; 2008 winner of IBM's Outstanding SOA Solution; and two-time winner of the Overall Technical Excellence Award and 1 of 3 WebSphere Service Providers retained by IBM, specializes in end-to-end SOA and Portal solutions. We look forward to assisting with your project and can help every step of the way to ensure a smooth transition to a proven, secure and flexible WebSphere environment.

## Prolifics' J2EE Application Health Assessment

## Diagnosing Your IT Environment

IBM Tivoli Composite Application Manager for J2EE (ITCAM for J2EE) supports organizations that must maintain a high degree of application availability and performance for hundreds of users and multiple heterogeneous environments. It quickly pinpoints, in real time, the source of bottlenecks in application code, server resources, or external system dependencies providing detailed reports that you can use to enhance the performance of your applications. ITCAM for J2EE identifies exactly where your application's problems reside so they can be quickly routed for resolution.

Prolifics' ITCAM experts will provide the following free-of-charge offer designed to demonstrate and unleash the value of ITCAM for J2EE in your environment.

### J2EE Application Health Assessment:

**Prolifics' J2EE Application Health Assessment** provides a comprehensive review of specified J2EE applications. During this engagement we will target 1 to 2 key representative applications in pre-production, QA or staging. ITCAM for J2EE will monitor the selected applications identifying bottlenecks, performing data analysis, providing recommendations for tuning and troubleshooting for ideal performance, and leaving you with the following:

- An understanding of the value of application management tools and how they work within your environment
- Awareness of the health and performance of your applications
- Procedures for identifying potential issues, specific code problems and bottlenecks
- Ability to route identified issues to the appropriate individuals for quick resolution

#### Next Step:

We're offering a dedicated Discovery Call between you and an IBM-certified Solutions Specialist to understand your current topology and determine which application(s) would be appropriate for this offering. This no obligation Discovery Call can help you uncover your application management requirements and shed more light as to the best path toward meeting your business and technical objectives.

#### Typical Duration:

1-2 days onsite / deliverable in 4-5 days

### About Prolifics:

Prolifics provides WebSphere, Portal, SOA, Business Integration and Security solutions to Fortune 2000 companies around the globe. Since 1978, Prolifics has leveraged best practices, proven methodologies, and real-world expertise to help organizations reach new markets, achieve increased customer satisfaction, ease collaboration within their enterprise and solve their application performance issues. Due to extensive experience with the entire IBM WebSphere Brand, Prolifics has the needed blend between Tivoli skills and J2EE, WebSphere and Portal skills. Prolifics is a TRUSTED Partner which IBM deploys out to their own customer's most critical situations. Prolifics is rated Level 5 – IBM's highest technical rating – providing technical, mentoring, training and recruitment skills that are on par with in-house specialists at IBM. Recognized for its excellence, Prolifics has gained an industry-high 96% success rate for deploying robust systems on-time and on-budget (independent survey by leading analyst firm).
