

Prolifics,
2010 Winner of IBM's Best End-user Portal Solution and Best Industry Portal Solution Awards and two-time winner of the Overall Technical Excellence Award, specializes in delivering SOA solutions, content and collaborative portals, business intelligence dashboards, data cleansing strategies and security models. We look forward to assisting with your project and can help with governance and application management strategies to ensure a smooth rollout and the ongoing maintenance of your IT assets.

Portal Application Performance Review

Portal Value Revealed

Prolifics provides specialized services designed to demonstrate and unleash the value of WebSphere Portal and its new collaborative capabilities so you can best utilize your enterprise assets and gain maximum benefits creating a dynamic workplace for your organization. With WebSphere Portal, your organization can gain operational efficiency, user collaboration, cost reduction, and revenue optimization.

Portal Application Performance Review:

Description: The Portal Performance Review will be executed by a senior-level, experienced portal architect. The Prolifics architect will review your existing WebSphere Portal installation and recommend ways to optimize its performance, achieve higher scalability and throughput, as well as making recommendations for next steps toward enhancing your portal.

The service will include the following steps:

- ◆ Discovery call to review existing architecture and discuss future-state requirements
- ◆ High level architecture analysis (requires access to the application source files)
- ◆ Presentation of findings including:
 - ◆ Strengths and Areas of Improvements
 - ◆ Recommendations for Architecture and Performance Enhancements
 - ◆ Discussion on Monitoring Strategy
 - ◆ Recommendations for Application Enhancements

Duration: 2-4 days depending on application. Could be conducted onsite or offsite as long as access to the application is provided.

Deliverable: Presentation of findings and recommendations.
