

## Prolifics,

2010 Winner of IBM's Best End-user Portal Solution and Best Industry Portal Solution Awards and two-time winner of the Overall Technical Excellence Award, specializes in delivering SOA solutions, content and collaborative portals, business intelligence dashboards, data cleansing strategies and security models. We look forward to assisting with your project and can help with governance and application management strategies to ensure a smooth rollout and the ongoing maintenance of your IT assets.

## Get "out-of-the-box" with WebSphere Portal

## Portal Quick Start

As businesses continue to change and adapt to gain market share, remain competitive, increase revenue, and contain costs – their IT departments are challenged to be agile and responsive and facilitate these business changes. IBM WebSphere Portal enables organizations to reduce costs by leveraging and extending their existing investments in enterprise data, content, processes, collaboration and security technology – with the flexibility to evolve and meet the changing requirements of today's business environment.

Prolifics offers specialized services designed to unleash the value of portals and bring relevance and cohesion to your entire IT infrastructure, whether your organization is a small-to-midsize business or a larger enterprise. We'll help you take advantage of WebSphere Portal so you can best utilize enterprise assets and gain maximum benefits creating a dynamic workplace for your organization.

**All service offerings come with a 2-hour Discovery session with one of our Senior Portal Architects.**

### Portal Quick Start:

Prolifics' Consultants work with you from the start to install, configure and jump start your team on using WebSphere Portal. The Quick Start runs for 3 calendar weeks and consists of the following activities:

#### Week 1:

- ◆ Review the short- and long-term requirements for your portal
- ◆ Installation of WebSphere Portal software
- ◆ Overview of Portal functionality in context of specified requirements
- ◆ Map the short-term requirements into existing Portal functionality
- ◆ Begin designing custom functionality

#### Week 2:

- ◆ Complete design of custom functionality. Produce design summary document (1-2 pages)
- ◆ Define development process and procedures
- ◆ Work with your Project Lead to establish a high level development plan
- ◆ Work with your team members to establish the development environment
- ◆ Begin mentoring developers in portlet development
  - Emphasis on skills needed to meet short-term requirements
  - Actual development tasks will be assigned to your team members
  - The consultant will assist the team members in these tasks
  - Time permitting the consultant may work on more difficult tasks to help move them forward

#### Week 3:

- ◆ Complete mentoring developers in portlet development
- ◆ Recommend follow-on steps
- ◆ Recommend training roadmap based on team profile
- ◆ Recommend additional services that you should consider

**Solution Price: \$25,000**
