

Prolifics,

2010 Winner of IBM's Best End-user Portal Solution and Best Industry Portal Solution Awards and two-time winner of the Overall Technical Excellence Award, specializes in delivering SOA solutions, content and collaborative portals, business intelligence dashboards, data cleansing strategies and security models. We look forward to assisting with your project and can help with governance and application management strategies to ensure a smooth rollout and the ongoing maintenance of your IT assets.

Personalize Portals for Customers, Suppliers, and Partners

Intranet Portals for Changing Business Needs

Prolifics' certified portal Solution Architects, Administrators and Developers are called upon by IBM to conduct large enterprise-scale portal projects! Our seasoned experts will help you install and configure a portal environment, demonstrate valuable portal features, and will translate the breadth of your portal objectives into a step-by-step roadmap to meet your current and future needs.

From Intranets to Extranets to Consumer Portals, organizations are now able to deliver a personalized, tailored and collaborative experience to their employees, suppliers and customers. Prolifics offers the following services to jump start your intranet and customer portal strategy.

All service offerings come with a 2-hour Discovery session with one of our Senior Portal Architects.

Portal Starter Pack:

Prolifics' Portal Starter Pack* includes software and services and is aimed to jump start your portal project and address your portal requirements. We will help you take the steps toward successfully providing your employees, partners, or customers a single customized interface to aggregate applications, data, and on-line resources! With portals, you can conduct your business to the greatest efficiency while improving customer satisfaction and employee productivity.

Our Portal Starter Pack includes the following software and services:

- ◆ IBM WebSphere Portal Server software for 20-users
- ◆ IBM Rational Application Developer software
- ◆ 12-months of software maintenance and support
- ◆ 5-days of expert services including:
 - Assessment of project scope
 - Installation and setup of portal framework and development environment
 - Guidance on personalization and customization of portal user interface for branding and ease of use
 - Training on portal usage and deployment including navigation of portlet catalog
 - Demonstration of integration with Microsoft Desktop applications and documents, email and calendaring systems, and existing Web applications
 - Overview of security implementation of user access rights & LDAP directory
 - Implementation of high-level search functionality across portal framework
 - Strategic guidance on meeting your current and future portal requirements

Solution Price: \$10,000

Content-based Portals:

Create portals that deliver dynamic content on the web. Add Lotus Web Content Management for content creation, approvals, management retention, and publishing across Internet, Intranet, extranet and portal assets.

Contact Prolifics to obtain pricing information based upon your specific requirements.

Form-based Portals:

Create portals that enable electronic forms processing. Add Lotus Forms to easily create interactive Web forms that help reduce paper costs, collect accurate data at the point of capture, improve workflow and extend existing IT investments.

Contact Prolifics to obtain pricing information based upon your specific requirements.

**Travel and expenses not included*
