

Prolifics Health Assessment for IBM WebSphere Process Server

WebSphere Process Server is at the heart of your business process management solutions, ensuring that the processes you design in WebSphere Business Modeler or WebSphere Integration Developer are executed consistently, reliably, securely, and with transactional integrity. Process Server is helping organizations in all industries increase business process capabilities and gain a standards-based business integration strategy.

With your business data at stake, let Prolifics' Process Server experts provide a health assessment designed to test and review the reliability and performance of your Process Server implementation. Focus areas covered for the analysis include Performance, Availability, Disaster Recovery, Scripts/Automation and Monitoring. An invaluable report will be shared which details the analysis, provides a project roadmap, estimates effort, includes a high-level project plan and recommends best practices where applicable.

Assessment Features

Prolifics' certified WebSphere Process Server Solution Architects will provide a FREE Health Assessment which typically includes the following activities:

- ◆ Implementation review
- ◆ Examine Process Server configurations (Architectural review/discussion)
- ◆ Analyze Process Server error logs/files (Review any outstanding PMR's)

Deliverables: Summary report outlining findings/recommendations listed above and on areas reviewed such as: High Availability, Disaster Recovery, Monitoring, Scripts/Automation and Mentoring. A Prolifics WebSphere Process Server architect will deliver and discuss the final report.

Duration: 1 day of analysis (final report in 2–5 days)

Price: FREE*

How to get started: The first step is a 15-30 minute discovery call to understand your current situation, identify the areas Prolifics will focus on during the engagement and determine if you qualify for a free Process Server Health Assessment.

**This service is typically conducted remotely. Travel expenses may apply if onsite work is required.*
