Solution; and two-
time winner of the
Overall Technical
Excellence Award
and 1 of 3

WebSphere Service
Providers retained by
IBM, specializes in
delivering SOA
solutions, content
and collaborative
portals, business in-
telligence
dashboards, data
cleansing strategies
and security models.
We look forward to
assisting with your
project and can help
with governance and
application manage-
ment strategies
to ensure a smooth
rollout and ongoing
maintenance.

WebSphere Message Broker Extender for TIBCO RV

Enhancing Your Messaging Solution

WebSphere® Message Broker Extender for TIBCO RV provides TIBCO RV message handling capability, enhancing IBM WebSphere Message Broker beyond IBM WebSphere MQ messaging into a more complete brokering solution.

WebSphere Message Broker Extender for TIBCO RV is a tool set of plug-in nodes, extending the capabilities of the base Message Broker, and is fully integrated with WebSphere Message Broker tooling. Essentially, the plug-in nodes provide WebSphere Message Broker with the ability to subscribe and publish TIBCO RV Messages for TIBCO RV reliable and certified messaging.

By using WebSphere Message Broker Extender for TIBCO RV, WebSphere Message Broker can handle incoming TIBCO RV messages directly using the input nodes, without having to convert the data into WebSphere MQ messages and place them on a WebSphere MQ input queue to drive the message flow. Similarly, the WebSphere Message Broker can handle publishing TIBCO RV messages directly using the output nodes.

With **WebSphere Message Broker Extender for TIBCO RV**, you can:

- ◆ **Reduce delivery cycle times and error rates.**
- ◆ **Get better visibility and control** over integration-related operations.
- ◆ **Reuse existing RV-based applications and RV data**, rather than purchasing, rebuilding or setting up complex adapter frameworks.
- ◆ **Extend the benefits of a managed mediation framework**, such as that provided by IBM WebSphere Message Broker, to RV-based applications and RV data.
- ◆ **Supply useful and timely information** to employees, customers, suppliers, and partners.

About Prolifics:

Prolifics provides WebSphere, Portal, SOA, Business Integration and Security solutions to Fortune 2000 companies around the globe. Since 1978, Prolifics has leveraged best practices, proven methodologies, and real-world expertise to help organizations reach new markets, achieve increased customer satisfaction, ease collaboration within their enterprise and solve their application performance issues.
